# SARIT + STATE
### CREATIVE STUDIO

**Sarit + State Creative Studio is seeking professional freelance web programmers to support our existing and growing client base.** The ideal candidate(s) will work with our team on website projects that vary in size and scope. We help businesses and non-profits improve their brand exposure through web, print, social and digital media outlets. For more information about our firm visit **saritstate.com.**

## Required Skills

» Minimum 5 years of relevant web development experience
» Minimum 3 years of experience with Wordpress and customizing child themes, including premium themes
» Knowledge of HTML, CSS, PHP, MySQL, and Javascript
» Creative problem solving skills
» Ability to work in a team and receive creative and technical direction with ease
» Professional attitude
» Ability to self-manage and work remotely
» Attention to detail and quality

## Skills that will help:

» Experience with the premium Avada Wordpress theme and customizing their child theme
» Experience with WooCommerce or other E-Commerce platforms
» Experience with the Linux operating system and WHM/Cpanel

## How to Apply:
